

Head Start Soccer League

April 21, 2007

12:00 News

A local preschool soccer program kicks off the fight against childhood obesity. 850 children involved with the Head Start Centers played a game of soccer this morning. The kids are all between the ages of 3 and 5. They played for fun, but this game is also part of a Head Start initiative to instill healthy eating habits in children. The game was played at Our Mother of Sorrows soccer field in Roselawn.
